Dear Dr. Kilislian,

You did a root canal on one of my upper molars on Dec. 23. I'm the lady who needed so many x-rays because of my long roots. I just wanted to thank you again for the wonderful job you did. Discomfort and freezing were minimal and I haven't had any swelling, pain or sensitivity since the procedure. You are a true professional and I was so pleased to have a certified endodontist to do a proper job. Our medical care in the City of Kawartha Lakes isn't the best right now. We've lost our doctor in Bobcaygeon. So I think it's wonderful that you care enough to drive to Peterborough once a week to offer your services.
